Homework, Week 3: Reading Warm Water

Warm Waters practice sheet - pairs with the Warm Waters School pages. Five minutes a day beats an hour on Saturday. Print this sheet and stick it on the fridge. You do not need to buy a rod for homework.

☐ Visit any water and find all five edge types. Photograph or sketch each one and label it.

☐ Watch a pond for 10 minutes with no rod. Write down where you saw fish move or feed.

☐ Practice the low, slow approach in your yard: walk up on a target without “spooking” it.

Water rule: any practice at real water needs a parent or adult with you. No exceptions.

Partners: a parent, a buddy, or a Youth Helper can hold the hoop, count the reps, and ask what today’s cue was. You don’t need to fish to help. Five minutes of attention beats an hour of equipment.
