Homework, Week 5: Carp & Patience

Warm Waters practice sheet - pairs with the Warm Waters School pages. Five minutes a day beats an hour on Saturday. Print this sheet and stick it on the fridge. You do not need to buy a rod for homework.

☐ Watch any fish (even minnows) for five minutes and predict where it will move next. Score yourself.

☐ Practice leading: have a partner walk slowly, and you cast the yarn two feet ahead of their path.

☐ Write down one fish that “beat” you and what you would do differently next time.

Water rule: any practice at real water needs a parent or adult with you. No exceptions.

Partners: a parent, a buddy, or a Youth Helper can hold the hoop, count the reps, and ask what today’s cue was. You don’t need to fish to help. Five minutes of attention beats an hour of equipment.
